

MOZAMBIQUE

## EMERGENCY AID

Provision of food and agricultural kits, means of transportation and start-up supply husbandry of animals for families in crises

Beneficiaries of the agricultural kits

<b>Duration:</b>	January 2023 – December 2024
<b>Location:</b>	Beira and Dondo District, Province of Sofala, Mozambique
<b>Beneficiaries:</b>	300 families
<b>Partner:</b>	Associação OLAPA, Beira, Mozambique
<b>Area of intervention:</b>	Ability in self-sufficiency
<b>Budget:</b>	CHF 61'222

For the past several years, central Mozambique was effected by severe flooding and devastating cyclones, that have destroyed houses and devastated fields. These natural disasters have increased the basic needs of hundreds of thousands of people, including many refugees and displaced persons.

To assist families affected by cyclones and poverty, SwissABILITY and the local partner OLAPA support 300 families with four types of aid: the supply of emergency food and agricultural kits, the donation of a bicycle or motorbikes or as start-up supply of husbandry animals.

These interventions help with the most pressing needs and offer vulnerable people the long-term means to earn a living for themselves and their families.
