

MOZAMBIQUE

EMERGENCY AID

Provision of food and agricultural kits, means of transportation, animals, hygiene kits and school kits

Duration:

January 2023 –
December 2024

Location:

Beira and Dondo District,
Province of Sofala,
Mozambique

Beneficiaries:

500 families

Partner:

Associação OLAPA, Beira,
Mozambique

**Area of
intervention:**

Ability in self-sufficiency

For the past several years, central Mozambique was effected by severe flooding and devastating cyclones, that have destroyed houses and devastated fields. These natural disasters have increased the basic needs of hundreds of thousands of people, including many refugees and displaced persons.

In 2023, SwissABILITY and the local partner OLAPA supported families affected by cyclones and poverty through: the supply of food and agricultural kits, the donation of means of transportation and animals.

In 2024, the support continues through the donation of food, hygiene, and school kits, as well as the donation of bicycles to students living in areas farthest from school.
