

# Swiss<sup>+</sup>ABILITY

MOZAMBIQUE

## A HOME FOR ALL

Construction of family houses for the most vulnerable people in central Mozambique

**Duration:**

January 2023 –  
December 2024

**Location:**

Beira and Dondo District,  
Province of Sofala,  
Mozambique

**Beneficiaries:**

40 families

**Partner:**

Associação OLAPA, Beira,  
Mozambique

**Area of  
intervention:**

Ability in the  
infrastructure

For the past several years, central Mozambique was effected by severe flooding and devastating cyclones. These natural disasters damage the homes of millions of people, as well as public infrastructure, such as bridges, power lines, schools, water systems and healthcare facilities.

By 2023, SwissABILITY - with its partner OLAPA, a local non profit association - has already built 20 homes for families affected by cyclones and the endemic poverty that oppresses the country.

In 2024 we expect to build 20 more houses, to provide relief to other families in need.
